

## Welcoming Digital Science

[Digital Science](#) is a technology company serving the needs of scientific and research communities at key points along the full cycle of research. They invest in, nurture and support innovative businesses and technologies that make all parts of the research process **more open, efficient and effective**.

They promote an approach that improves information flows and creates seamless connections to better serve the whole of the research community: researchers, funders, institutions, publishers, governments, laboratories and industry, so that they can discover new insights that benefit everyone.

Some examples of Digital Science's portfolio companies:

[Dimensions](#) is a next-generation linked research information system that makes it easier to find and access the most relevant information, analyze the academic and broader outcomes of research, and gather insights to inform future strategy.

[Altmetric](#) allows users to track and measure activity around academic research, pulling patterns and compelling stories from hundreds of thousands of online conversations each month.

"We believe that together, we can help researchers make a difference."

**Digital Science joined ICSTI as a Class B2.5 Full Member on 7<sup>th</sup> November 2018.**
