

**WORKSHOP ON PRIMARY DATA FOR LIBRARIES  
AND INFORMATION INSTITUTIONS**

**ICSTI Winter Meeting 2009**

Monday 2 March 2009 – 9.00-13.00

Chair: Jan BRASE

**PROGRAM**

Ensuring access to original data that provides the foundation of scientific knowledge has become an important global challenge. The scope of this non-public workshop (ICSTI, CODATA and invited guests only) is to discuss the problem of providing access to data including integration into library catalogues. The workshop is divided into two parts. In the first part, we explore the roles that libraries can play and present possible approaches and examples. Furthermore, a new initiative of European libraries to establish a joint global data registration agency will be presented. In the second part, we will discuss details of the joint global data registration agency. While the second part is targeted at consortium partners, it is open for all attendees.

First part

Introduction

9:00 – 9:10

Jan BRASE

Talks:

9:10 – 9:30

World Data Center MARE, Michael DIEPENBROEK

“Handling of research data”

9:30 – 9:50

OECD publishing, Toby GREEN

“Data registration at the OECD”

9:50 – 10:20

The German National Library of Science and Technology (TIB), Jan BRASE  
“Research data in library catalogues and the joint initiative of European technical  
libraries for data registration”

10:20 – 10:45

Oral statements from The British Library, ETH Zürich Library, TU Delft Library,  
DTU Library and INIST  
“National approaches for data access in Europe”

10:45 – 11:00

Wrapping up and Discussion

11:00 – 11:30

Coffee break

### Second part

11:30 – 12:00

TIB, Uwe ROSEMANN  
Introduction to the plans of the joint consortium.  
- details  
- structure

12:00 – 12:45

Open discussion

12:45

Signing of a “Memorandum of understanding” by the consortium partners
